Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a female, in my 50's, who travels throughout rural parts of Connecticut in the evening hours. My sole purpose for Tracfone service is strictly for safety reasons - should something happen to my vehicle; should I get into an accident; should I need directions.

For the purpose that I use my phone, the rate I am paying is within my budget, which is very tight these days.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Teri Richardson
